

POLYFLOAT™ 3710

Application

- Collector that is effective for many sulfide flotation plants
- Can be used in conjunction with other collectors
- Water-soluble collector that is easily added in numerous locations
- Dosages range from 4 to 80 grams/ton of processed ore

TECHNICAL DATA SHEET

Benefits

- Commonly used to increase recovery of Pb, Ag, Au, Cu, and Mo
- Currently being used at many mines globally
- Used in alkaline pH flotation schemes
- Strong, cresylic sulfide ore collector
- Can be used with other collectors

Properties

Appearance

Yellow to dark brown liquid

SG @ 20°C

1.19 g/cm³ (20°C)

Water solubility

Nearly completely water soluble

pH

> 12.5
